

rffo informal memo

To: RFCA Focus Group
From: Joe Legare, DOE-RFFO
Date: July 11, 2000
Subject: June 29, 2000 Meeting Summary

We appreciate your attendance at the first Rocky Flats Cleanup Agreement (RFCA) Stakeholder Focus Group meeting on June 29, 2000, and look forward to your continued participation. This information package is intended to support your preparation for the next meeting, **Wednesday, July 19, 2000, at the Broomfield City Hall, Zanespur room, from 4:30 to 6:30 p.m.**

This package includes:

- June 29 meeting summary
- 903 Pad Characterization Report Executive Summary (The full report is quite large and therefore we didn't include it herein, however, to obtain a copy, contact Anna Martinez at 303-966-5881.)
- Community Advisory describing availability of the 903 Pad Characterization Report
- Several pages from the Code of Federal Regulations describing the cleanup process under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)
- Regulatory Closure Framework Glossary
- Regulatory Closure Framework Glossary – Studies.

All of this information can also be found on the Rocky Flats Web Site at www.rfets.gov, under Public Involvement – Environmental Restoration. We will continue posting to the Web Site and mailing meeting summaries and preparation materials for the next few meetings. Then we will convert to electronic posting of this information to the Web Site exclusively, unless you have a specific need for mailing.

The first agenda item at the next meeting is the 903 PAD remediation, including the decision, to be made in the next few months, regarding who will conduct the remediation, Kaiser-Hill or the Environmental Protection Agency. The 903 Pad remediation approach may be chosen as early as next spring and we will discuss the depth and breadth of the scope of that project. The second agenda item is the CERCLA decision-making process. This process is extremely important to our deliberations as its components transcend all of the issues that are part of the accelerated cleanup decision-making process.

For questions or additional information, please contact Paul Hartmann (DOE) at 303-966-5379 or John Corsi (Kaiser-Hill) at 303-966-6526, or me at 303-966-5918.
